

Put the **power** of IHA to work for you

IPC Group Purchasing Delivers Top-Tier Discounts on Hospital Supplies and Services

IHA members can access discounted rates on essential supplies and services through IPC Group Purchasing (IPC). Our group purchasing organization (GPO) is a collaboration of IHA, hospitals, health systems and Premier Inc., one of the nation's largest GPOs.

We reduce healthcare supply chain expenses through:

- National GPO pricing
- Volume aggregation
- Regional contracting

Together, members of IPC Group Purchasing form a network to aggregate their GPO spend to get the most aggressive cost savings available in the market today.

The benefits of IPC membership:

- Achieve better tier pricing and discount opportunities through contract aggregation
- Access to the Premier Inc. portfolio of products and services
- Vendors pre-vetted for the best value and exceptional service
- Customized member support

Our successful volume aggregation model delivers the best value for IPC members.

Learn how IPC can reduce costs for your organization.
