## **Webinar 2: Empowering Your Middle Managers to Make Miracles Happen**

***Sponsored by HealthCare Association Credit Union***

Want to accelerate innovation and improvement in your hospital? Tap your middle managers. As the “connectors” between staff and leadership, managers are uniquely positioned to tie hospital priorities to daily activities. Hospital CEOs and C-Suite leaders are essential to the equation. By providing the right support, you'll produce managers who are more engaged, more empowered and, ultimately, more effective. This interactive session will explore how championing your managers can result in better outcomes and organizational performance.

At the end of the session, you will be able to:

- Describe a best practice script to engage team members.
- Recognize how to balance engaged followership with proactive leadership.
- Use proven methods to communicate decisions.

- Discover methods to give and receive feedback.
- Summarize a values-based decision process.

- Hospital/health system CEOs
- C-Suite leaders
- Clinical, operational and department leaders
- Aspiring leaders
