

Date: December 14, 2023

Time: 12:00 PM

Virtual - noon-2 p.m., CT

(Per Webinar)

IHA Members: \$195 per hospital or per health system office*

Non-IHA Members: \$245 per organization*

***Please note: The registration fee includes an unlimited number of connections within the same hospital or within the hospital system corporate office.** It cannot be shared among system hospitals.

With a focus on improving quality, equity and patient outcomes, the Centers for Medicare & Medicaid Services (CMS) continues to modify the Conditions of Participation (CoPs) for hospitals. Maintaining compliance can be challenging as the current manual for acute care hospitals, dated July 2023, consists of 559 pages of survey protocols, regulations and interpretive guidelines. A five-part IHA webinar series will guide hospital leaders and staff through the manual to boost your compliance efforts. Lena Browning-Calloway, a seasoned accreditation professional, will lead the series, providing essential compliance strategies and resources specific to CMS' State Operations Manual Appendix A. You'll learn about recent revisions and common standards surveyors cite to strengthen internal processes and avoid costly fines.

The webinar series will explore these frequently cited requirements:

- Care in a safe setting (environmental safety, infection control, security)
- Nursing care plans
- Legibility requirements
- Necessary policies and procedures
- Nursing medication carts
- Informed consent
- History and physicals
- Verbal orders
- Medication administration
- Medication security
- Emergency preparedness

Topics

- Infection prevention and control
- Discharge planning
- Organ, tissue, and eye procurement
- Surgery and Post-Anesthesia Care Unit
- Anesthesia
- Hospital Improvement Initiative
- Outpatient
- Emergency services
- Rehabilitation and respiratory services

Learning Objectives

At the conclusion of this program, participants will be able to:

- Identify strategies to meet challenging infection prevention and control standards.
- Describe survey activities that could affect your organization's surgical services.
- Discuss strategies to improve compliance with outpatient Conditions of Participation.
- Identify standards and strategies to reduce suicide risk and prevent workplace violence.

Who Should Attend

This webinar is designed for hospital leaders and staff responsible for CoP compliance, including those in:

- Hospital administration (CEOs, COOs, CMOs, CNOs)
- Accreditation and compliance (including clinical and regulatory professionals)
- Infection prevention and control
- Surgical services
- Anesthesia
- Quality improvement
- Outpatient
- Emergency department
- Rehabilitation and respiratory services
- Human resources
- Medical staff

- Nursing
- Risk management

Professionals seeking to expand their understanding of current COPs are also encouraged to attend.

At the conclusion of the webinar series, participants will be able to:

- Outline hospital Conditions of Participation and describe strategies to remain in compliance with them.
- List some of the most challenging Conditions of Participation as identified by the Centers for Medicare and Medicaid Services (CMS).
- Identify changes to CMS survey procedures and interpretative guidelines.
- Describe recent Clinical Standards and Quality (QSO) updates and their impact on your organization.

This program is designed for hospital leaders and staff responsible for CoP compliance, including those in:

- Administration (CEOs, COOs, CMOs, CNOs)
- Compliance, accreditation and regulation
- Quality improvement
- Risk management
- Facility management
- Infection prevention
- Radiology
- Rehabilitation
- Legal affairs
- Health information management
- Diagnostic imaging, laboratory, emergency department, outpatient care, rehabilitation (OT, PT, speech pathology and audiology), operating room and special procedures
- Clinical leadership including physicians, nurses, pharmacists, social workers and dieticians

Lena Browning-Calloway, MHA, BSN, RNC-NIC, CSHA

A nurse leader and accreditation specialist, Browning has more than 25 years of clinical leadership in acute care settings. She is an expert in CMS, The Joint Commission and state regulations and has performed system-wide tracers for continuous

readiness and patient safety. Browning has coordinated accreditation and regulatory surveys, chaired continuous readiness committees, and coached staff and leadership in effective compliance and performance improvement strategies. Throughout her career, she has demonstrated a commitment to improving patient safety by empowering staff and leadership to maintain continuous compliance and achieve excellence across healthcare settings.
